

# SYNCRA SDC 3.0 THE LATEST

**SYNCRA SDC 3.0** is the latest to complete the successful Sicce Wi-Fi controllable pumps range. This compact pump integrates all SYNCRA SDC pumps' main features and has been upgraded by an immediate and easy set up system while connecting the pump to the Wi-Fi network. Key voice commands will make the use of this pump a real interactive experience where technology, innovation, high performances and low energy consumption create the best ever synergy in your aquarium system.
